

FRIDAY LETTER

FERUARY 8, 2019

1 INSURANCE CLAIM FOR STORM DAMAGE AT SPRINGS.

When the poll down at the springs was damaged, we were responsible for new wires from the disconnect switch to the poll. And when we lost power to the springs before that the programing in the P.L.C cabinet was lost. Kelly put in a claim to our insurance company for both fixes.

The claims adjuster contacted me yesterday for information, what happened, why and when. I gave here the info. She asked if I had pics, I sent her the three I had.

Today I received a call from her informing me that they had accepted both claims les the \$500. Deductible we are receiving \$ 8730.19 back.

2 TREE PLANTING.

I had Melissa from Schafer land scape revise their proposal. I had her remove the mulch and fertilizer and substitute for deer fencing. It's not much different in price. They can pull right up to the job with the truck and they do have the layout for planting from king county so they know the spacing.

3 ANGIES OFFER LETTER.

Yesterday Angie and I sat down and went through her job description, list of duties. She accepted it. Angie is keeping track of her hours in quick books and hours of duties out side of that. In three months, we will have a good idea of just how much time she is working and on what. There are still details to work out.
